

Parikrma's ReachV Academic Data

One of the current and more pressing debates across the globe has been about online education and performance of children, and how most education institutions are grappling with falling grades. At Parikrma, the journey has not been easy - considering a complete digital shift has been the biggest challenge for our parents and children. However, post training for teachers and counselling to parents – we are witnessing almost full attendance and children are enjoying the sessions. We wanted to share with you our latest academic data that proves the same.

1 st assessment marks on 40	High School (Grades 8-10)	
	2019	2020
Base	301	277
SCIENCE		
Avg mark/40	24	23.7
% 71-100	37.5	34.3
MATHEMATICS		
Avg mark/40	22.7	21.5
% 71-100	37.2	25.1
SOCIAL SCIENCE		
Avg mark/40	24.4	22.5
% 71-100	37.2	32.5
English		
Avg mark/40	25.0	25.6
% 71-100	33.9	41.3

The chart (left) shows high school marks in FA1 last year and FA1 (online) this year. The data clearly shows no significant difference in marks between online and F to F – indicating consistency.

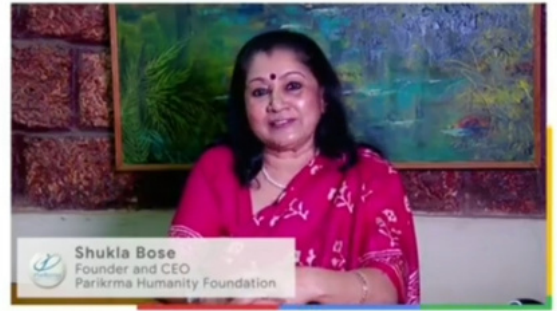

**difference significant at the 95% level using t-test of independent means*

Here, we have highlighted student performances – seen above, students Ayesha and Deepak, now in grade 10, have been performing better than last year. This is just one class from one of our schools – we have the same good news to share from all schools and junior college too :)

Women leaders: Google Talk

Founder Shukla Bose is one among the chosen inspiring women leading transformation across Asia Pacific by Google Cloud in its latest Executive Women's Forum. Watch her talk on 'changes in paradigms of success for women'.

[Here's the link to the campaign](#)

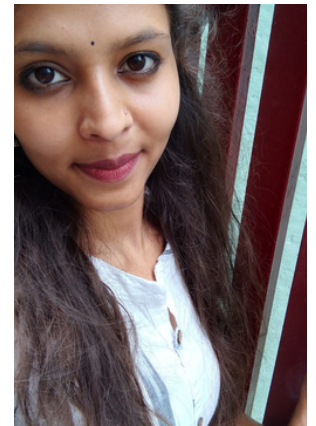

Alumni make us proud!

We are super thrilled to inform you all that our alumni, Sheela G has completed her BSc (chemistry, botany, zoology) with 91% and Varalakshmi has completed her BSc in psychology with 88.4% :)

"I am happy to inform you that I have recently finished my BSc in Psychology and I have secured 88.4% akka. I have planned to pursue MSc in Psychology at Bangalore University. I am extremely thankful to Parikrma for teaching me all those valuable lessons that has enabled me to progress in life today."

- Alumni Varalakshmi's message to Parikrma teachers

Community Support!

Our 360 model got tested during Covid19. For 6 months we have continued with online classes with ReachV. We continue to provide rations to 1500 families and help with healthcare & support to parents to increase their income. We raised funds to buy a vegetable cart for the parents of Mohammed & Saif's father Allabuksh - he was selling coconuts & lost his earnings during lockdown. The vegetable cart will help him increase his business. But most satisfying was to see the sons reading the agreement on behalf of their illiterate parents and helping them sign. A big shout out to all our friends who donated to make all this possible.

- Shukla Bose
