

Parikrma teachers awarded!

Our teacher Swetha from Parikrma Nandini Layout School received an award and recognition from the government for her hard work and dedication. Teacher Ashwathlakshmi from Sahakarnagar School was recognised as a great teacher by the Karnataka Primary School Teachers Association of Bangalore North.

Outstanding Leadership Award

Founder Shukla Bose was awarded the Education 2.0 Outstanding Leadership Award in recognition for contributions to the fields of education and learning.

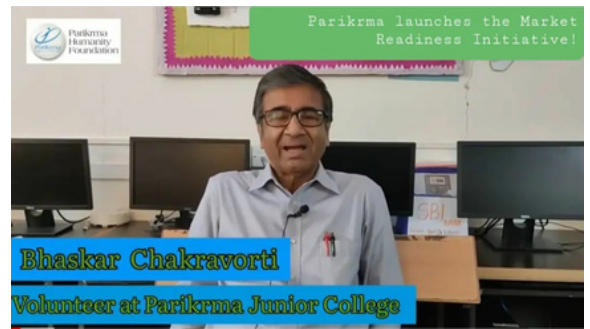

Women Achievers

Parikrma Heads, Kalpana Singh & Latha Selvan picked up a special award given to distinguished women. Parikrma is an incubation lab that creates leaders who bring change with their passion & humility - Leaders amongst both adults & students.

New initiatives and more...

Parikrma has launched the Market Readiness Program. Know more about the initiative and the benefits it offers to Parikrma children. Mentor behind the idea, Bhaskar Chakravorti talks about the program

As part of the Parikrma Inside program, we recently inaugurated the summer school at the government schools in Bashetihalli and Ellupura - A 10-day program combining education and loads of fun! The Block Education Officer BEO addressed the students... Parikrma Foundation has so far adopted several government schools, where the Parikrma Way model is being implemented to aid the teachers and students and make learning a whole lot of fun and wholesome.

IndiaAssetz and the Parikrma Foundation has launched Prana – Clinic on Wheels: a primary augmented neo-medical aid. The model (with 6 beds) will serve as a Mobile ICU, with oxygen support – the facility has already been used to vaccinate hundreds of children and families from the slums. The mobile clinic will be used to service thousands living in over 110 slums in Bengaluru. A big shout out to Sai Narain and Selco Foundation.

The Parikrma Boys Football Club is prepping for the upcoming league... Show some support and follow their official Instagram handle @parikrmaboysfc

Solar Panels at the Parikrma Jayanagar School

We recently inaugurated a solar energy system at our Jayanagar School – supported and funded by the Selco Foundation and Wells Fargo.

Selco Foundation on the initiative:

“This is part of a larger project to “Energise Social Institutions”, where we have powered 13 institutions across Karnataka and Tamil Nadu that cater to marginalised individuals (residential schools, centres for differently-abled people, vulnerable women, rehabilitation and training centres).

- To ensure the reliability of energy for staff and residents/students
- To reduce future electricity bills so these institutions can use their limited resources on building their programmes
- To increase climate resilience and reduce CO2 emissions

It was inaugurated by Sowmya Reddy, the current General Secretary of All India Mahila Congress of Karnataka and a member of the Indian National Congress. Reddy tweeted, “Inaugurated the Decentralised Solar Energy solutions at Parikrma Centre for Learning in Jayanagar. In order to enhance the significance of renewable energy and ensure a sustainable future, a large number of such startups should emerge.

It was incredible to see the beautiful paintings painted by the students on the walls of Parikrma.

The @parikrma_foundation sets an example by unleashing the potential of underserved children, thereby enabling them to live on equal terms and to become valuable, contributing members of society. They also offer high-quality free CBSE English medium learning modules, wholesome support to over 1800 families in the slums via training, de-addiction and counselling, financial planning and free health check-ups.”

At Parikrma, we believe it’s essential to teach our children, share information about climate change and renewables, and set an example. We are thrilled to be driving a sustainable future and hope to include all our schools in the fold.

Here we go meeting many more SDG goals!

Parikrma Impact

We are super thrilled! Hrushikesh, our grade 11 student, has been selected to attend the Student Enrichment Program at IIT-Madras.

The Larger Picture

Founder Shukla Bose was part of the webinar with Mala Kumar, the author of *Up the Mountains of India* at the Azim Premji University on Nature Writing for Children.

At the event held by AIM Leaders Council, Anuradha Roy Chowdhury, Head of Operations at Parikrma was one among the three speakers discussing Data Science for Good. #edtech #DataScience

Volunteers Speak!

Rajeshwari, a management professional, says: Coming from corporate culture, I did not witness a bossy, subordinate culture. There is no hierarchy, no seniors or juniors. Everyone is treated equally. I'm touched by the unique practices followed here.

Outside the classroom

Students in grades 10 and 11 attended the financial literacy orientation workshop by financial planner Shashirekha Raghavan organised by Be.artsy India. The sessions are a part of the ongoing summer program at our schools.

May Fundraising Campaign

Every year, as part of the regular health check-up, every student's height and weight are measured. We want to make the equipment available to students and teachers in their schools. We are investing in digital weighing machines and height measuring scales at each of our centres. We also want to upgrade our medical kit and emergency aid kit at all our centres.
