

MARCH 3RD, 4TH AND 5TH, 2022

CHANGING THE CLIMATE CRISIS,
ONE DEGREE AT A TIME!

Hundreds of students from schools across the country including government schools got an opportunity to understand one of the biggest crisis faced by humanity today: Climate Change.

Speakers:

Dr Harini Nagendra, Azim Premji University

Dr Chandni Singh, IIHS

Bijal Vachharajani, Pratham Books

Ricky Kej, Grammy award winner, environmentalist

Dr Kim Gutschow, Disket Angmo, Climate Z

Chef Anumitra, Shalini Krishnan, Edible Archives

Chetana Purushotham, Spiders and the Sea

Bittu Sahgal, Sanctuary Asia

Dr Geetha Ramaswami, Season Watch

Ashish Kothari, Kalpavriksh & Vikalp Sangam

Dr Chitralkha Massey, OHCHR Regional Representative, UN

The speakers covered various topics:

Music and climate awareness

Biodiversity, climate change and cities

Migration, Climate Refugees & Macroeconomic Fallouts

When a book comes alive

Climate change in the high mountains

What will we eat?

Warming in the oceans

Tracking climate change through trees

What can kids do?

Stories of hope

Parikrma #fos22

The hackathon event: Judges for the COP27 Climate Summit were Dr Sanjay Vashist (Director, Climate Action Network, South Asia), Dr Chitralekha Massey, Ayesha Tabassum (senior journalist), Dr Pardip Dutta (former corporate VP of Synopsys). Tejaswini, Aruna and Bhagyashree from Synopsys.

We want to thank Synopsys for its steadfast and continuous support over the years. This relationship has provided us with strength and encouragement each year, to make the Festival of Science one of the best science festivals for children in India.

A big shout out to our host, alumni Kruthi Murthappa

In the News

"Educating children on climate change is critical and this can happen not from textbooks but by bringing in experts from this field who will share their perspectives," Shukla Bose explains about the event.
